LEATHER INTERIORS

These leather collections conceived for fashion accessories are treated with highly innovative applications and processes that endow leather with metallic luminescence. Suitable for light upholstery and vertical surfaces, these collections are not recommended for high traffic areas or seating applications.

Thickness: 0,7 / 0,8 mm

Made in Italy

Maintenance:

Leather is a natural material. Slight colour variations and scratches are natural characteristics of the product. Direct exposure to sunlight and installation near heat sources should be avoided.

Wipe periodically with a dry cloth to prevent dust from building up. Do not use harsh cleaners or solvents.

Testing: FR, aviation and marine certifications available upon request. Contact our Sales department at +39 0444 453745.

Applications: residential, hospitality, marine. Not recommended for upholstery.
