LEGENDS OF THE WALL

Stylish, elegant and classic – you can't go wrong with leather. Which might explain why, with the luxury material at the core of its product range, Studioart is aesthetically unrivalled in the world of modern interior design. Offering everything from leather cushions to rugs, the Italian design house prides itself on being versatile and providing interiors with a rich and contemporary feel. To celebrate its 10th anniversary, designers Massimo Brancati, Giorgia Zanellato and Elaine Yan Ling Ng have reinterpreted the key product Leatherwall, experimenting with different shapes and colourways to extend the acclaimed range of wall coverings. ■
